Peace Proposal in Rail Walkout  
is Considered

PLANS ARE KEPT SECRET

Union Chiefs Meet Road Heads at  
Baltimore

CHICAGO — (United Press) — Striking men met railroad officials in Baltimore today to consider a peace proposal, according to John Scott, secretary of the federated shop crafts committee in Chicago.

Scott declared that plans of the conference had been kept secret. He said that if the leaders at Baltimore believed the peace proposal was acceptable a call would be issued for an immediate conference of the shop crafts policy committee in Chicago.

Bert M. Jewell, president of the shopmen, was believed to be at the Baltimore conference.

DEXIES REPORTS

NEW YORK — (United Press) — T. DeWitt Cuyler, chairman of the Association of Railway Executives, issued a formal statement today, denying reports that the shopmen's strike had been settled. He also denied that any meetings to discuss settlement were contemplated.

Cuyler, however, does not speak for the group of executives headed by Daniel Willard of the Baltimore and Ohio Railway, and it is this group that is believed to be negotiating.

BRIDGES BOMBED.

CHICAGO — (Associated Press) — Strike conditions today generally were reported quiet throughout the country.

Atchison, Topeka and Santa Fe officials reported that a bridge near Verdemont, Calif., at the mouth of Cajon Pass north of San Bernardino had been dynamited.

The Nebraska Federation of Labor adopted resolutions asking for a general strike of organized labor in the United States in support of the railway shopmen's strike.

DAUGHERTY OUSTER SOUGHT.

NEW YORK — (Associated Press) — Initiation of proceedings for the impeachment of Attorney General Daugherty and Federal Judge Wilkinson of Chicago, on the ground that the strike injunction granted by the latter at the former's request was in violation of the constitution, was urged on Senator Borah in a telegram dispatched today by John J. Dowd, chairman of the general strike committee of the eastern railroad shopmen.

UNIONS SEE VICTORY.

WASHINGTON — (United Press) — Organized labor expects to quash or force modification of the Daugherty injunction.

Legal experts of labor, preparing to oppose Attorney General Daugherty's request that the injunction be made permanent, believe they have a chance of having the permanent injunction refused unless the government modifies it.

Samuel Gompers also believes labor will succeed in beating the injunction. This belief is predicated in part upon utterances from the White House and Daugherty. Within the past few hours, both these sources have made it clear that the government did not intend to apply all the restrictive clauses of the injunction. In fact, no use will be made of the prohibition against meetings, interviews and statements. Unless these things are definitely violations, not alone of the injunction, but of the law.

DAUGHERTY STATEMENT.

Daugherty said in a formal statement:

"Free speech and free press ends when used as an instrumentality to incite to riot and to murder and to interfere with the government. Anything done to contribute to a riotous end is a violation of the law and of this injunction. There is no objection to union meetings when they are not calculated to interfere with interstate commerce."

Almost at the same time Daugherty was giving expression to his views, William H. Johnston, one of the most active leaders of the striking shopmen, was making a speech to strikers at the Washington terminal here.

The injunction, Johnston said, "is a big noise" and called on the workers of America to "rise and repudiate any government official or the administration that backs any attempt to invade the freedom of American citizens. This 11th hour attempt to intimidate, to coerce, to bring into play the Big Berthas of the administration will utterly fail."

Johnston advised the local workers to continue their union meetings and their picketing of the shops.

TRIP AROUND WORLD  
ABANDONED BY ARBUCKLE

TOKIO, Japan — (Fatty) — Arbuclle has recovered from the infection in his hand which caused him to go to a Yokohama hospital on arrival from the United States Saturday, but has abandoned his plans for a tour of the Orient and an around-the-world trip.

Arbuckle arrived in Tokio today and will remain in Japan until September 16, when he will leave on the return trip to his home in Los Angeles. No specific reason for abandoning the tour was given.

PEGGY BEAL IS

FURNISHES BAIL FOR HER

Preliminary Trial is Set for September 16

KANSAS CITY — (Associated Press) — Marie "Peggy" Beal of Dayton, who shot and killed Frank Warren Anderson, local department store floor man, on June 3, then attempted to take her own life, is free on bond today.

Mrs. Beal appeared for arraignment on a charge of second degree murder in justice court and was released on \$5,000 bond signed by her attorney, George Birmingham. Her preliminary trial was set for September 16.

"Peggy Beal is alone, friendless and without a cent in the world," Birmingham told the court. "But she wants to tell her story. Peggy Beal would rather destroy herself than be vindicated in the eyes of the public."

The slaying of Anderson followed, according to Mrs. Beal, after he had confessed he did not intend to marry her.

She was released from a hospital yesterday where she had been recovering from a self-inflicted bullet wound.

TEACHING FORCE  
IS ADEQUATE

Transfer of Students Will Prevent Increasing Staff

Despite the increased enrollment in Lima public schools, Superintendent J. E. Collins believes that the corps of 232 teachers will be large enough. Better organization at all schools, he says, will be carried out to hold down the number of teachers.

Transferring of pupils from one school to another is regarded as the best avenue of escape from the predicament of congestion. Efforts are being made, Collins declared, to transfer to the longer distances only pupils of the upper grades.

The transfer method will prevent many schoolrooms from being crowded to the extent that one teacher would have charge of 60 scholars, but as it is, the superintendent said, a number of the buildings will average at least 50 per room.

A considerable increase was noted from the time the first census was taken at 10 a.m. Tuesday until scholars were dismissed for the day, but it has not been tabulated. The initial counting of noses disclosed an enrollment of 6,802—259 more than on the opening day in 1921.

A total of 137 tuition pupils, whose expense will be borne by township boards of education, was reported, and 33 students took the state test for admission to the county normal school.

SON, BELIEVED DYING,  
IMPROVES WHEN FATHER COMES FROM PRISON

PHILADELPHIA — Edward F. Dorey, prisoner at Leavenworth, Kansas, who is here for a second time in a year by the grace of the government, visiting his five-year-old son "Bucky," whose life hangs in the balance, has virtually despaired of receiving a pardon at an early date.

Instead of a pardon there came a parole last night while he was telling stories to his invalid son that his leave of absence had been extended five days. At the end of that time the guard who is here with him has been instructed to return to Leavenworth with his prisoner. His first leave expired today.

Meanwhile "Bucky" is said to be improving. For a time it was feared that his father would not see him alive. The boy is suffering with a heart disease.

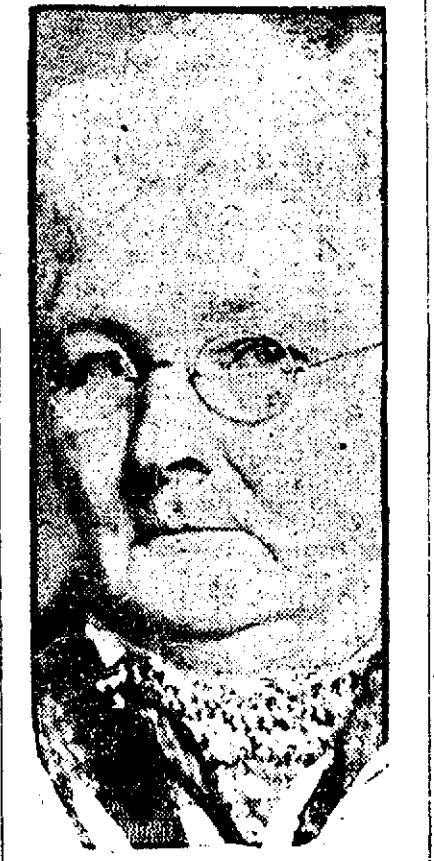

MUNICIPAL COAL BINS  
VOTED AT COLUMBUS

COLUMBUS — Ten thousand dollars was appropriated by city council today for the establishment of municipal coal bins, where coal this winter will be sold at cost.

Not more than five tons will be sold to any one family at one time. The service will start October 15.

Councilman Justus, in introducing the measure, declared there is not more than 10,000 tons of coal available for domestic use in Columbus and that unless immediate steps were taken by the city dire suffering would result.

DRY LEAGUE MEN  
DEFEATED

Wisconsin Ticket Opposed by An-tis Wins by Big Vote

MILWAUKEE, Wis. — (Associated Press) — Indications early this morning were that Senator Robert M. LaFollette had been overwhelmingly renominated in yesterday's primary election over W. A. Ganfield of Waukesha, as Republican candidate for United States senator at the November election. The vote reported from 1,282 precincts out of 2,523 showed 156,926 for LaFollette and 66,043 for Ganfield.

According to the returns it appears that the people of this state endorsed the issues which LaFollette had advocated at Washington and upon which he sought renomination. These were:

Opposition to the Esch-Cummins law, Newberryism, the four power treaty and his opposition to the policies of President Harding.

LEAGUE MEN BEATEN

Mr. Ganfield who went down to defeat, was the candidate of the citizen's Republican conference which had the backing of Senator Irvine L. Lenroot, Wisconsin junior senator. He was supported also by the Anti-Saloon League.

Returns from 815 precincts show that the entire LaFollette slate ticket decisively overcame its opponents by large majorities with the exception of Solomon Levitan, who was leading in a close race for treasurer against Henry Johnson, incumbent for six successive terms.

Governor John J. Blaine, led the state ticket, his victory being decisive over Attorney General William J. Morgan. The vote in 1,282 precincts was Blaine 148,328; Morgan 72,523 and McHenry 7,837.

The Anti-Saloon League endorsed all the candidates opposed to LaFollette.

RACE CLOSE IN NEVADA

RENO, Nev. — (Associated Press) — Representative Samuel S. Arentz had a lead of 67 votes over Charles S. Chandler for the Republican nomination for United States senator early today when one-fourth of the votes cast in yesterday's primary were counted. About 15,000 votes were cast, divided about evenly between Democratic and Republican candidates.

Senator Key Pittman had no opposition for renomination on the Democratic ticket for senator.

STEPHEN'S LEADING

JACKSON, Miss. — (Associated Press) — With six counties of the 82 in the state unreported Hubert S. Stephens, former congressman from the second Mississippi district, was leading former United States senator James K. Vardaman in yesterday's second Democratic primary for nomination to the United States Senate by approximately 14,000 votes, according to incomplete and unofficial returns tabulated early today.

These returns, including 24 counties complete, gave Stephens 85,296; Vardaman 71,256.

The Democratic nomination in Mississippi is equivalent to election.

Lancaster Inmates' Flesh Declared Torn by Beatings

SCARS ARE FOUND ON 299

Investigators Claim Whippings Average 17 Daily

COLUMBUS — (United Press) — Capt. R. H. Hastings, nine years superintendent of the Boys' Industrial School at Lancaster, was dismissed from the state's service today.

Charges of inhuman treatment and cruelty to youthful incorrigibles at the school which resulted in dismissal of Superintendent Hastings were made by the following committee appointed by Ohio Welfare Director MacAyeal:

E. C. Shaw, chairman of the state board of administration; C. H. Mayhugh, of the institute of public efficiency; Fred E. Croxton, Ohio State University; E. F. Moyer, Dayton, and W. R. Hamar and S. C. Griffin, of the state welfare department.

Hastings' dismissal, which came as the result of alleged inefficiency and mismanagement as disclosed by recent investigations of conditions at the institution was announced by State Welfare Director MacAyeal.

PROBE ORDERED BY DAVIS

T. C. Jenkins, superintendent of the Mansfield Reformatory, was temporarily transferred to Lancaster to fill the vacancy caused by Hastings' removal.

Hastings' dismissal, which came as the result of alleged inefficiency and mismanagement as disclosed by recent investigations of conditions at the institution was announced by State Welfare Director MacAyeal.

Report of the second committee, made without recommendation sustained in general the charges made in the report of this investigation resulted in the appointment by MacAyeal of a committee to make a second probe.

Report of the second committee, made without recommendation sustained in general the charges made in the report of this investigation resulted in the appointment by MacAyeal of a committee to make a second probe.

Findings of the second committee include:

"1—There is a distinct feeling among the boys that they will find it to their disadvantage to try to go to the superintendent to discuss their problems or to report conditions in the institution.

"2—There has been indiscriminate and uncontrolled punishment.

"3—Boys were compelled, for running away, or planning to escape, to wear iron shackles weighing from ten to fourteen pounds for weeks and months.

"4—Various kinds of corporal punishment, such as beating of boys' feet with sticks, striking of pulling hair, have been more or less frequently indulged in by subordinate officers without interference by the superintendent.

"5—Many of the officers are untrained.

"6—There is little attempt to segregate feeble minded and psychopathic boys from other inmates.

"7—Too much authority and responsibility is allowed boys selected as "immate guards."

"8—Food at the institution has been poor, monotonous and often unsanitary and menu cards submitted to the Welfare Department have often been misleading if not false.

Of 973 boys interviewed, according to the report, 299 bore scars of whippings they had received. Official records showed the average number of whippings daily to be 17 and in one month the average was 27. One boy testified he had received 150 whippings in forty-four months.

Flesh on the bodies of many of the boys was cut and torn by "paddlings" administered to the naked body, the report declared.

CALL CHARGES FAKE

LANCASTER, Ohio — (United Press) — Captain R. H. Hastings today characterized the charges brought against him by the welfare departments investigating committee which resulted in his dismissal as superintendent of the boys' industrial school at Lancaster, as "false and misleading and designed to get me scalp politically."

Upon hearing of the action taken by Welfare Director MacAyeal, Hastings declared he was "not given a chance" at the time of the investigation.

AMAZED AT INCREASED  
WEIGHT OF WOMEN

ST. CLAIRSVILLE, Ohio — Dr. and Mrs. J. Kelly Giffen, upon returning to their home here, after 40 years as missionaries in Egypt and the Sudan, say to them the most remarkable thing in America is the increasing weight of the women.

Too much candy and too little walking is the answer to so many fat women in America, thinks Mrs. Giffen.

Dr. and Mrs. Giffen will return to Egypt, sailing from New York September 16. They are representatives of the United Presbyterian Church.

## OFFICER KILLED IN GUN BATTLE

Toledo Detective Shot to Death by Suspects

### PATROLMAN IS WOUNDED

### Three Men Sought Escape as Riot Call is Sounded

Immediately upon information that bandits who killed a policeman at Toledo Wednesday and wounded another were headed towards Lima, a detail of Lima police set out shortly before 2 p.m. to meet the desperadoes. The party was headed by Chief Lanier and Captain Strick. Other officers who left were Ward Taylor, detective, and Dick Watkins, motorcycle officer.

Policemen were accompanied by reporter for The Lima News, who reported nothing had been seen of the bandits when police reached Vaughnsville. They were proceeding north from there, he said, and were prepared for a battle.

TOLEDO—(Associated Press)—City Detective Richard Martin was killed and Patrolman George Bach was shot in the leg when they attempted to arrest three suspects who drove a bullet-riddled automobile into a garage in the residence district here shortly before noon today.

One of the three suspects who opened fire at the officers was wounded, it is believed, but he escaped in the car with his two companions.

The fugitive machine bore an Indiana license.

The officers were sent to the garage in response to a report that three men had left a suspicious-looking car there and would call for it later. The officers were in the garage when the trio returned for the car and as they attempted to drive it from the building the battle ensued.

A riot call was turned in but no trace of the fugitives or the machine has been found.

Martin is a veteran of the detective bureau and Bach who has been a member of the police prohibition enforcement squad since its inception was promoted to the detective bureau September 1.

## FOUR IN CONTEST

### Conrad and Dixon File for Sheriff Race

That voters of Allen-co will have a choice between four candidates for sheriff was assured Wednesday noon when John E. Conrad and Raleigh J. Dixon, independents filed nomination petitions with the board of elections.

Unless it should be shown that the petitions are faulty the two will be the two finalists in the race, the ticket along with William E. McClellan, Democrat, and James C. Crosson, G. O. P.

Dixon's petition, filed first contained 556 names; Conrad's contained 310 signatures.

### SEWAGE DISPOSAL PLANT TEST REPORTS READY SOON

Complete results of the one month test of the direct oxidation sewage disposal plant at Allentown, Pa., will be mailed to the city of Lima not later than Thursday a communication from George A. Johnson said Wednesday.

Because of the minute investigation of the system and the careful preparation of the facts discovered during the test, it has been impossible for the report to be completed sooner, he states.

It is upon the results of this test that the city hopes to be able to obtain the consent of the state board of health, to the erection of a similar plant here.

Copies of the report will be mailed to the Ohio and New Jersey state boards of health and to the cities of Newark, N. J. and Lima, it has been announced.

### HEWITT BACK, UNAWARE HE CAUSED FAMILY ALARM

Louis Harritt, 55, filling station employee, Robb-av, for whom search was made near Scotts Crossing Tuesday noon, turned up safe and sound Tuesday night.

He had been picking berries deep in the woods, and was unaware that his absence had given cause for alarm. Failure of Harritt to return home Monday night, caused his wife to seek aid of Sheriff C. W. Baxter in finding him.

### MEN AND MATTERS

Henry Wemmer, son of Mr. and Mrs. H. G. Wemmer, of W. Market st., and Carl Plummer, son of Mr. and Mrs. O. C. Plummer, of State st., will leave next Tuesday for Culver, Ind., where they will resume their studies at Culver Military Academy.

Laying of brick on the Metcalf-st bridge has been started and the paving will be completed by the middle of the month.

Excavation work has been started on the north side of Grand-av Street cars have been running on the new track and completion of the balance of the pavement will be rushed.

Poultry culling demonstrations were being held in Bath-av by H. T. Ridge, county farm agent, Wednesday. Demonstrations were held on the farms of Walter Miller, L. H. Mason and L. H. Bassett.

A large number of farmers attended the farm bureau and livestock shipping meeting at the Blue Lick school Tuesday night. One of the live stock organizations in the county has been established there, C. F. Mertz, live stock manager, said.

Regular farm bureau meetings will be held in Spencerville Thursday night and at Monroe Center Friday night.

## WHAT DID YOU SEE TODAY?

## BUILDING PERMIT BOOM STARTS

Many Issued Since Labor Day—August Total \$455,995

EVERY day the number of entrants in to our little game of "What Did You See Today?" increases, and interest in reporting to The Lima News humorous, odd events is rapidly mounting.

Many interesting little incidents happen before our very eyes every day in the year, which could truly be recorded, would provide copy for the large family of News readers. So why not cast your lot with the others and begin writing in to the Observation Editor, just what you saw today that impresses itself upon your mind as being unusual? The trouble is slight and the reward, if you are one of the lucky tour each day, is a ticket to the New Orpheum theatre good for any performance at the theatre.

Following is given the four prizes won in Tuesday's list of observations received:

### HOODOO'D GRAPES WINE

"While walking out to get my other day," writes Mrs. F. H. Hutchins, 1118 Hazel-av, "I saw a black kitten run up a grape arbor immediately the lady of the house dashed out, took the kitten out of the arbor and punished it, saying, 'Stay out of my grape vine, you hoodoo! Do you think I want to be seeing black cats all the time? I'm drinking my grape wine!'"

### A YOUTHFUL SLEEP-WALKER

Mrs. F. Royal Albridge, 1565 W. High-st, submits the following:

"My husband was awakened at 2:30 a.m. by voices from a house across the court from us. A light wind was blowing. He took the opportunity afforded by his waking moments to cover the baby who sleeps in our room. When he reached the crib, however, he found the child gone. Becoming alarmed, he awakened me, and began a search. A few moments later we found little two and a half year old John Edward toddling around on the porch of the home of Mr. and Mrs. Frank Bull, 1552 W. High-st. The child had awakened during the night and had managed to get out of the home to wander across the street. The Bull's had heard the child at their door and had come down to greet it. John Edward was wide awake at the time."

### THE LUCKY HORSE SHOE

Paul Phalen, 15, W. Circular, says he is thru with horse shoes forever. The other day a colored lad was playing in front of his home and chanced to see a horse shoe.

The lad rushed into the street to recover the treasure, and was about to throw it over his shoulder for good luck when an auto approached from the rear and severely bruised him. Queer luck, wasn't it?

### NOT DISTURBED

Orry Crumpton, 123 H. McKibben, says that during the rush in traffic on Dollar Day, one incident especially did not escape his notice.

A young man in a machine with an attractive young lady beside him, stopped in the Public Square to converse with her. The machine behind had to stop also, and there was a lull a block long before a few minutes had passed. Numerous honks disturbed the young couple not a particle, and after about five minutes, the young man, finishing his conversation, started up and drove off. "The waiting motorists behind him were not exactly kind in their remarks," says Crumpton.

### HERE ARE A FEW OTHER ENTRIES SUBMITTED

"Now that the hunting season is almost here, relates William Justice, General Delivery, farmers are busy getting signs up on their premises. Not far from Lima, one farmer has a sign, all newly painted which reads, 'No hunting allowed' and immediately across the road from his is a sign which reads, 'Hunt all you please, and when you are thru, come in for dinner.' As far as I can see, all there was to hunt was stump!"

### ANOTHER DOLLAR DAY

Reported by Mrs. Ida Justice, General Delivery, who says that while she was shopping on Main-st, a lady stopped her and inquired whether she could tell her where Main-st was. "You're on it now," said Mrs. Justice, and the lady seemed quite surprised.

### IT IS UPON THE RESULTS OF THIS TEST

that the city hopes to be able to obtain the consent of the state board of health, to the erection of a similar plant here.

Copies of the report will be mailed to the Ohio and New Jersey state boards of health and to the cities of Newark, N. J. and Lima, it has been announced.

# STOLEN AUTO IS FOUND HERE

Car is Property of Dayton Police Department

## MAN QUESTIONED ON WRECK

I. W. W. Card Found in Possession of Driver

A police emergency automobile, stolen from in front of the Dayton police headquarters Tuesday night, was recovered here by Lima police early Wednesday morning, and Robert Albert, 24, brakeman, giving his address as the Columbus Y. M. C. A., was placed under arrest.

An I. W. W. card found in his possession, and admission by him that he has been in Lima before, will result in an investigation of the youth, police say, to ascertain whether he knows anything of the wreck of a B. & O. freight train here August 24.

Albert admitted having been in Lima before, but denied knowing anything of the wreck.

During the course of his examination, police secured from him a verbal confession in which he admits stealing an automobile from Washington, C. H., some weeks ago. The machine belonged to John Parrott of that city. Albert told Lima officers that he drove the car to Toledo and left it in a garage there.

## DEO LINES TO TALK

He refused to divulge anything further, however, declaring that "they've got enough on me now," police said.

Albert was placed under arrest within ten minutes after he had driven into Lima, Wednesday morning, when two men from headquarters recognized the stolen car in his possession.

Albert told police Wednesday morning, that he took the car because he wanted to get out of Dayton. He claims to have eaten nothing for two days, until given breakfast by the Lima department.

He did not realize it was a police car, he said.

Dayton police who arrived here Wednesday morning, identified the car, and requested that they be permitted to take Albert back to Dayton with them, to answer to a charge of grand larceny, and to permit them to investigate him further.

Albert was turned over to the Dayton officers by Chief Lanker of the Lima department, with the understanding that they are to quiz him thoroly on the matter of the Lima railroad wreck.

**DIVORCE IS GRANTED**  
George Dillard, colored musician, obtained a decree of divorce from Lucile Dillard, in common pleas court Wednesday morning, on testimony showing that his helpmate deserted him three years ago. There are no children.

**DIVORCE DECREE SOUGHT**  
Alleging that his wife, Seila Rader, sought employment away from home and neglected her housework and children, Enos Rader, a blacksmith, 470 E. McKibben-st filed a petition in common pleas court Wednesday, asking a divorce. They were married in 1909. There are three children.

## FATHER BRINGS ACTION TO GET HIS DAUGHTER

Hearing of an application for a writ of habeas corpus made by Clinton E. Click, Marion, to obtain possession of Cleo Click, 13, his daughter, was heard at a night session of court of appeals Tuesday.

The child has been living with her grandmother Mrs. Agnes Mack, Marian, since the death of her mother. The Click's were divorced and the custody of the girl awarded to the mother.

The matter was taken under advisement.

## CLUE IN ROBBERY

### Police Suspect Known Criminals in Feldman Store Job

Records providing descriptions of known criminals who are believed to have burglarized the Feldman store N. Main-st, of \$10,000 in money and merchandise on the morning of August 20, are in the hands of Lima police officials.

An effort will be made by the Lima police department, Chief T. A. Lanker has announced, to definitely fix the robbery upon a gang of three men who perpetrated a similar robbery in Mansfield some time back.

General descriptions of the men, who are recognized by police as clever and elusive, lead to the belief that they are responsible for the Feldman robbery, police say.

The three men are known to police as Thomas B. Reader, 35, who plans the "jobs" undertaken by the gang; James R. Joyce, 28, an alleged dope fiend and brother to Reader; and William Mitchell, alias Meyers, 33, said to be the best safe blower in the country.

A woman by the name of Lillian York, 25, has been seen in company with Joyce, the records say.

**SULLIVAN FUNERAL**  
Funeral rites for John M. Sullivan, 88, of 536 W. Wayne-st, who died Tuesday, will be conducted Friday at 8:30 a. m. at St. Rose Catholic church. Interment in Gethsemani cemetery.

## AMBULANCE REMOVALS

## COME IN AND HEAR THE LATEST

## WELFARE BODY TO MEET FRIDAY

Plans for Future Work Will be Discussed

Future work of the Allen-co Child Welfare association will be outlined Friday noon at a luncheon at the Lima club. Discussion of plans for social welfare work the coming winter will, it is believed, lead to arrangements for indoor work along the same lines as last year.

The playground body will give a report of its meeting which will be held Wednesday night at the Public Library, and it is expected that the entire association will be asked to assist with plans for obtaining funds for that work.

It is undecided whether steps will be taken in the direction of a community chest, which made welfare work possible this summer.

Unless plans should be radically altered, local people will have the benefit this winter of programs at suitable places throughout the city, it was announced, and it is practically a certainty that motion pictures, which proved a great success last winter, will again be fostered.

Names of three new officers have been announced by the president, Dr. Josephine Peirce. Mrs. Roy Bantle was named corresponding secretary, succeeding Mrs. Lester Pratt, who has become recording secretary. Mrs. L. A. Larsen succeeds Mrs. J. Galvin as chairman of the Juvenile Literature committee, and Ben Motter is the new legislative chairman, succeeding Walter S. Jackson.

## FIXING COAL PRICES

G OVERNOR Davis has called a special session of the legislature to take steps to curb coal profiteers. He is directing his attention chiefly to operators who insist that they must have \$5.50 a ton for coal at the mines. That would mean at least \$10 delivered in the bins of Lima consumers.

The state already has proposed prices ranging from \$2.75 to \$4.80 a ton. The governor believes that the mere enactment of laws to regulate the price will be sufficient. If they are not, he has unlimited authority.

Developments of the special session will be interesting to the consumer who has no coal and does not know what he must pay for it if he can get it. While operators have granted increases in wages, which always are passed on down the line to consumers, these advances do not warrant the big boost in the price of coal asked, in the opinion of most authorities. All operators are not seeking the high price, but enough demand it to make the situation grave at this time.

It is to be hoped that much benefit for the consumer will come from the special legislative session. If it is to be of any value, speed must be the keynote. The public has been fooled so often it is losing faith. If Mr. Davis can deliver and save Ohioans a few dollars each, on their fuel bills at this time, his efforts will be appreciated.

## FLYING SAILBOATS

F LYING bicycles—motorless airplanes propelled by pedal—may be the next sensation in aviation. This is predicted by Glenn Curtiss, who, with the Wright brothers, pioneered the airplane.

Curtiss says that the whole science of flying may be revolutionized by the recent gliding contests in Berlin. A glider is a flying machine without a motor. Most of the German gliders are monoplanes. In the Berlin contest one glider remained in the air more than three hours.

Curtiss attaches great importance to the Berlin gliding successes because the real goal of aviators is to be able to fly like birds. The pilot of a glider is the closest approach yet to a "bird-man."

Everyone is asking: "What keeps the things afloat and what prevents their falling?"

The gliding machine, in leaving the ground and soaring into the air, takes off from a high place. A hillside is best, for air currents rising from the ground roll up a hillside like ocean waves upon a cliff. Not as powerfully, but sufficient to lift the machine.

The glider travels ahead on air currents. It is like a sailboat on water.

The big difficulty in air-gliding is that air currents change and as yet there is no way a flier can detect an air current until he is in it. Before man can fly like the bird he must develop an artificial substitute for the "air sense" that is part of the natural equipment of a bird.

## U. S. AND US

J APAN, with half our population, now has only 12,200 autos.

Here in America we have 10,500,000 motorcars. In all other countries combined only 2,500,000 cars.

This is a revelation about our comparative standard of living. For the auto, more than any other commodity, is an index of prosperity—that is, as Americans conceive prosperity.

J APAN, comments the Wall Street Journal, is passing thru the hic-cyle stage.

The Japanese are using 2,100,000 bicycles and about 115,000 jinrikishas—the two-wheeled hooded carts, drawn by trotting coolies, invented by an American missionary.

The bicycle in Japan is slowly crowding out the jinrikisha. Let's see, it's about 15 or 20 years since bicycles were all the rage in America. We are just that many years ahead of Japan—probably more, for with its smaller national resources it will take Japan longer to catch up with our present state of automobileism.

In a general way, Americans are from 20 years to 20 centuries ahead of other countries in conveniences, luxuries and standard of living.

N OT a bad country, those United States, when you give the subject a little thought and a grain of appreciation. We are so much better!

quated Reporter: I up to the fairest Labor Day I ever did see. Over to the avenue for a stroll. Seeing many super-peopple chatting holiday-fashion on the Lima club steps. But none paid me attention.

To a cafeteria for breakfast, noting a half dozen or more motor parties. All wanting hen-fruit in varied styles, some straight-up; some strangled; others boiled; and still more, turned for a brown. To the postie, thinking the deluge was over, albeit Raymond Horn came thru with a remembrance of August.

This day expected to compete in the great Handicap on Shawnee links, but entries closed before I registered. So, went to the City-Country picnic hard-by. And swam a half hour in Macbeth's pool. Thence boating with my wife, poor wretch, all afeare the craft would upset. Which it near-did, when I tried to dock.

Lunched at home on a loaf made from the last sad rites over the leg of lamb. Read long on Hergesheimer's tyle of the magical west. And shot of my days out in the Golden, with a snow-ball party on Pike's Peak that Fourth of July. When "over the viaduct" in Denver ushered you into the Colorado montecarlo of miners days.

night and copped. But good it did me little. As two weeks later, rode only the way to St. Louis with only a sucker for food.

In the evening late, the nurse prepared a tasty omelette, which we all much did enjoy the sad against her leaving us this day. There being but the one extra berth at our cottage. And Dee coming to claim it, after meandering across seas fighting fleas in Italy and fish in England. Out, and shock hands with Doc Foeing, just in from a small-pox patient. Said he had fumigated the hand; but it causes me much worry. Waved to Art Morris, the veteran political doestester; and was picked up by Frank Downing, the Holmes black statesman and barrister, for a free taxi ride back to the shack. Where did find we had been honored by callers, an unusual event.

Picked up a classic and enjoyed anew a chapter from Vic Hugo's "Notre Dame," and turned the leaves to stop at "An Ode to a Nightingale," very sweet.

In the evening drove to the train shed, and greeted Dee and her bundles, smelling of ocean salt. Albeit, she looking fit for a long visit home of seven days and eight nights. So, wondering what Brice Apples meant by his interesting note, to bed.

## YOUR HEALTH

## COMMON SENSE WAYS TO KEEP WELL

## HAPPINESS AND HEALTH

(BY DR. R. H. BISHOP)

Happiness and health have been found to be pretty good friends. They work together wonderfully. So remember, in your search for happiness, that health, probably is just around the corner.

Happiness works on our health in this way:

A happy state of mind permits the expansion of small blood vessels, allowing fresh blood to flow easily thru them. It also affects the nerves that control the lungs. They inhale more air, which means that they get more oxygen, and this in turn, means that the blood is more completely purified in the lungs. It makes the heart beat more evenly and this forces fresh blood rapidly thru the expanded blood vessels. Rapidly moving blood gives rich

nourishment to nerve cell and muscle, making it possible for them to do good, energetic work. Lastly, a happy state of mind makes the stomach churn better and at the same time more gastric juice pours in to aid in digestion.

This explains why we do better work when we are happy.

Happiness means that every organ is doing its best work, and the brain gets the benefit of this thru an improved blood supply.

The human machine is so delicately balanced that, when the smallest part of it fails, the entire working may halt. It is, like an engine, no matter how perfect every other part of it may be, if one little detail is broken, it cannot go on.

Many people have found that they must be calm and serene at mealtime if they would retain their good health. Thousands of cases have been proved that bad digestion comes from bad disposition and not a bad disposition from a bad digestion, as many imagine.

## POEMS YOU WILL ENJOY

By BERTON BRALEY

HELLO, BILL  
Folks, the subject of these stanzas,  
William Allen White of Kansas  
(Home address, Emporia, Kansas),  
runs a small-town daily journal;  
But because his mind is vernal,  
Fresh and open, keen and young,  
Old Bill White has always swung,  
Swings, and in the future will,  
What I'd call a trenchant quill.

William Allen White of Kansas  
Sometimes praises, sometimes  
pans us.  
In his editorial column,  
Bill is never dull or solemn,  
Yet he treats of serious things  
In a style that clearly rings  
With a simple, honest sanity,  
All afloat with true humanity.

William Allen White of Kansas  
From his office sanctum scans us,  
With a tolerant eye and kindly,  
When we go at problems blindly.  
Wise he is, yet not a scholar,  
Forceful, yet not prone to  
to quit with him.

choicer;  
Something of an empire-shaper,  
William Allen White of Kansas  
Loves us, knows us, understand us,  
Therefore when he writes a song,  
It is something people read,  
Unafraid of fake or fraud,  
Calm, clear-headed, just and broad,  
I salute him in these stanzas,  
William Allen White of Kansas

# LIMA WILL PASS ON TIME TANGLE

Question to be Submitted to  
Voters in November

## HEADWAY MADE ON GRANTS

### Power and Car Problems Believed Near Solution

Lima voters will have an opportunity to register their approval or disapproval of daylight saving time at the November election.

This was made certain when the commission ordered the question to a vote by the people at its meeting Tuesday night. The action of the commission will be certified to the county board of elections immediately.

Wordings of the question will be such that the city of Lima adopt what it wants in Eastern standard time from 2 a.m. of the last Sunday in September and what is known as Eastern standard time from 2 a.m. of the last Sunday in September to 2 a.m. of the last Sunday in March.

Voters will be asked to vote "for" or "against" the measure or "against the measure." The question of Eastern time a year thus will not be broached commissioners said.

Placing the question before the voters will forever eliminate the trouble experienced each spring

when certain interests demand that Eastern time be adopted during the summer months, the commission believes.

#### AGREEMENT IS NEAR

Agreement as to the conditions upon which the Ohio Power Co. will be permitted to operate here is near. It appeared after a two hour conference with D. J. Cable, of the Lima City Street Railway Co., and Frank Espy, of the Ohio Power Co.

At the present time three things are desired by the city commission if the Ohio Power Co. is permitted to operate. They are passage of regulatory measures, establishment of a rate for street lighting and a lower rate for the middle class of power users.

Espy told the commission that his company stands ready to abide by any common-sense regulatory measures which may be passed. These provisions should not be a part of a franchise, he said.

A motion was passed by the commission providing for a survey of the city's street lighting system now and as it will be in the future and then asking the Ohio Power Co. to bid for the lighting.

Several sections of the city despite boulevard lights and it is possible that a number of changes in the lighting of other streets will be decided upon.

Following a decision by the city as to what it wants in the way of street lighting the Ohio Power Co. will be able to quote its lowest rates, Espy said.

A schedule of rates which would decrease the cost of power to the middle class of users was presented to Espy by the commission. He asserted his company has gone the new schedule to the higher officials of the concern.

#### TIME LIMIT ON FRANCHISE

Provisions of the city charter make it impossible for the power company to accept a new franchise.

Espy told the commission A grant

can only be given for 10 years and a company could not be financed for this short a period, he said.

While the commission desires to have the company accept a new franchise, it has asked the city solicitor to inquire into the provisions of the charter and if the power company's contention is correct, the franchise demands may be dropped, it is indicated.

Several minor changes were made in the street railway franchise by the commission and it was announced that everything is ready for its passage. It will not be passed, however, until the power grant or rate ordinance is also before the commission for passage, it was stated.

Both Espy and Cable stated they are well satisfied with the way things are progressing and told the commission they are ready to push matters thru to a settlement immediately.

Agreement by the Amalgamated Realty Co., owners of the Northern Heights addition, to the construction of a sewer with its cost and the expense of operating a pump station for a period of 10 years assessed against the property was received by the commission.

#### PROVIDES FOR DRAINAGE

This action permits the immediate construction of the sewer which will drain this section of the city. Sewage from the addition will be pumped into the West St sewer, it was stated.

A sewer in Cole-st was authorized by the commission and others in Second-st, Holmes av and W Elm-st were postponed a week. Paving of Albert st from the end of the present paving was approved by the commission. Paving of Woodlawn from Market to High-sts will be suspended if the property owners will permit its paving in accordance with the plans of the city engineer, it was decided.

## PETITIONS FILED FOR MISS ALLEN

919 Signatures Attached to Papers for Woman Judge

Seventeen petitions signed by 919 voters for the independent candidate of Florence E. Allen, of Cleveland for judge of the Ohio supreme court were filed at the office of the Allen-co election board Wednesday.

Mrs. Kent Hughes, 1231 Lakewood-av, is a member of a statewide committee of five pledged to Miss

Allen's candidacy. A majority of the signers in Allen-co are women, the petitions show.

Beside Mrs. Hughes the committee is composed of Judge F. A. Henry, William L. Davis, attorney and Mrs. Malcolm McBride of Cleveland and Miss Mary Brogan, Cincinnati.

Petitions have been circulated over the county for two months. A majority of the signatures were obtained in Lima and are representative of all walks of life.

Signatures were obtained from

both Republican and Democratic voters. All persons who signed the petition are obligated to support the candidate by a clause in the instrument.

A number of names on the petition were obtained from persons not residing in Allen-co, it is said. They may be stricken off, according to A. J. Morris, clerk of the board of elections.

The petition will be held at the board of elections for five days, for objections. Morris said, and then filed with the secretary of state at Columbus.

The petitions contain from 14 to 179 names.

"What followed was not very clear to him. The mock-American fought like a devil unchained. The animals at the pole ran away in good earnest, that wretched barouche rolled and pitched like a rudderless ship in a crazy sea, the two men floundered in its well like two fish in a pail."

"They fought by no rules, with no science, but bit and kicked and gouged and wrenched and struck as occasion offered, and each to the best of his ability."

"Duchemin caught glimpses of a face hideously distorted with working features and disfigured with smears of soot through which insane eyeballs rolled and glared in the moonlight."

"Then a hand like a vice gripped his windpipe, he was on his back, his head overhanging the edge of the floor, a thumb was feeling for his eyes."

Learn a Word a Day

TODAY'S word is—RAPPROCHEMENT. It's pronounced — ne-uhrd by Webster, ra-prosh-muh-nuh, with the first syllable lightly and the second syllable more heavily accented, but in its original French form the last syllable is pronounced about half way between "mawnt" and "mong" with the "t" barely, if at all, touched upon, and with the syllables equally accented, a pronunciation lacking an exact equivalent in English.

It means—the act or fact of coming or being drawn near or together; the establishment or state of friendly relations.

It was "lifted" into the English language directly from the French, "rapprocher," to cause to approach again.

It's used like this—"Some French leaders believe they have a chance to get their money more quickly and easily by a rapprochement with Germany than thru the use of force."

## SUSIE SMART'S ADVICE

Dear Miss Smart:

I AM a girl 20 years of age and have been going with a young man of 22 for the past six months. He has been wonderful to me and has shown me a fine time. I really believe that I have fallen in love with him. However, he has never mentioned love to me. I am worried about him because he is not going to write my name on his car. His intentions are not serious. What can I do about telling what his intentions toward me are?

WORRIED.

YOU, no doubt, are aware of the fact that a girl should not make a deliberate effort to find out whether or not a young man's intentions are serious. For her to attempt such a thing is almost equivalent to her asking him to marry her.

Perhaps the young man is not certain whether or not he cares enough for you to ask you to marry him. In that case he is wise in waiting until he is certain of his own feelings. If he finds out that he is really in love with you he will not hesitate to tell you so. Do not feel that you are wasting your time when you are enjoying pleasant friendship.

Dear Miss Smart:

My mother is nearly 50 years old and has no means of support only what I can do. Could she get a widow's pension? Would one have to go to the Probate Court to file a claim?

WORRIED.

Your case will have to be taken to the probate court in the court house; where it will be definitely explained to you.

Dear Miss Smart:

(1) I have many blackheads. Will you please tell me what will remove them? (2) Can you tell me what will make skin soft? (3) What is good for thick lips? (4) How is my writing?

PEGGY.

(1) To eradicate blackheads, mix one ounce of tincture of green soap with 3 drops of peroxide. Apply to the face with absorbent cotton, rubbing it thoroly. Let the lotion remain on the face a half hour, then wash off with cold water. Apply three or four times a day. When the blackheads have been removed, use an astringent regularly after bathing and rinsing the face in order to close up the enlarged pores. (2) Each night before retiring apply a layer of cold cream to the face in order to remove the powder and other cosmetics. After rubbing in well, wipe off the cream on a bit of old linen. A heavy father or pure soap should then be worked up between the palms, and massaged gently into the skin. Rinse off thoroly with warm water, pat the skin all over with cold water. Do this each night and you will find your complexion wonderfully improved. (3) There are few things that can do to decrease the size of the lips. Avoid biting them as that only tends to increase them in size. (4) Fair.

(Continued From Our Last Issue)  
Lucas gazed at his father, uncertain for a minute whether the old man were wholly serious. His father was never more offensive to him than when he chucked in satiation at his own smartness.

The next day, when Lucas completed his business with his lawyer, Jaccard, he himself made an appointment with a private detective who proved so competent that when Ethel left the house on Scott street that afternoon she had no idea whatever that she was followed.

"Started work 2:15 p. m. opposite Scott street. Miss Ethel Carew, by front door 2:58." So read that portion of the confidential report which was supplied to Lucas that evening.

"Followed her to — N. State Street where she rang, was admitted at 3:20 and remained until seven minutes past four. Inquiry established that number — is establishment of a Mrs. H. J. Davol, a professional psychic medium at apparently first-class practice, no previous record of arrest or conviction."

## CHAPTER XII

The young man who called himself Barney Loutrelle, had never, of himself and upon his personal command, entered such a home as that of Scott street.

Ethel upon the floor above, had been ready for many minutes. She had seen Barney approaching the scene, but she had waited for the moment to tell her that Mr. Loutrelle had come and then, amazingly, a tramp had attacked her when she reached the head of the stairs.

The sight of his strong, vigorous figure striding toward her had stirred a flutter in her breast which no amount of argument with self could quiet.

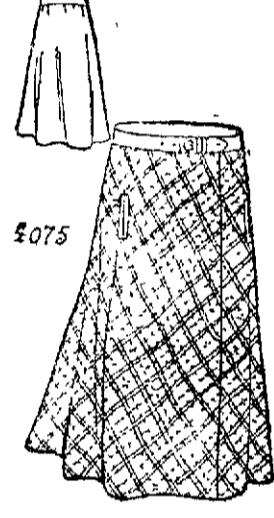

"Miss Carew?" he spoke her name when she appeared.

"I'm so glad you're here!" she said. "Oh, I'm, so glad! A great deal has happened. I found out a good deal more about James Quinlan."

"I told the landlady where he had that I was a Cullen and of course concerned about him."

"Something had happened inside James Quinlan after Robert was

most wholly ignorant of the subject. The medium wore a plain, gray, woolen dress which closely fitted the ample lines of her figure.

"These your friends?" Mrs. Davol inquired as Ethel greeted her. She pointed to seats close together while she herself took the large, leather chair near the center of the room.

"Sometimes, just before Eva comes, I'm clairvoyant; I see things pretty clear," Mrs. Davol volunteered.

"When I do, of course, I'll tell you what I see."

Strangely the presence of the medium instead of intensifying for Ethel the solemnity of the room had dispelled it.

"I feel a lot of force here," the medium said.

"She ought to feel the police force," Bennet whispered derisively to Ethel, who made no reply while she watched Barney who had supplied himself with a pen and pencil, which he now took from his pocket, ready to record what would be said.

"I think sure we'll get something," Mrs. Davol continued. "I see—I see a woman, very beautiful. She is no longer young; she is middle-aged; she—now I see water! I see a lot of water and people swimming; she is in the water; she is drowning; she is trying to swim. I see a great ship sinking. I think it is a steamer; it is going down. Yes; it is a steamer. I see many people in the water; but now I do not see her."

The voice of the medium halted, and Barney filled in, from memory, the gaps of unimportant words when the medium spoke too fast for pencil to follow.

"I still see water," continued Mrs. Davol, "but not the same water; this is smooth and blue and very clear. Ice floats in it. I see trees on the shore and a girl in a cloak walking under the trees. She bears a burden beneath her coat—Now I see her more clearly—the burden she bears is a child—unborn—she stumbles and is afraid—she looks upon the water and seems to think to cast herself in—but now some one appears in a boat—padding—it is a canoe—"

Again the voice of the medium halted; and now, tho the description recalled nothing to Ethel's mind, yet the manner of this recital of vision lessened Ethel's feeling of fraud.

Mrs. Davol suddenly thrust herself back in her chair and her voice marvelously altered.

"There is some one here with much difficulty," this new voice said. Quite old. He wants very hard to speak. He is with two others, both much younger. Eva has seen one of them before; Eva tells one of them was waiting for him, the old man not well built up. He had a long, troubled life—he wants to say—but cannot—" The voice trailed off murmurs, unintelligible and then inaudible.

"Mr. Loutrelle, this is my cousin Bennet Cullen."

"Loutrelle!" Bennet repeated, facing about to Barney again. "So you are Loutrelle!"

The exclamation was so insulting that Ethel rejoiced that Barney offered no reply.

"What do you want here?" Bennet was demanding.

"Miss Carew knows why I am here," Barney replied quietly.

"I ask you to tell me!" Bennet attempted to command.

"That's no use," Barney said, shaking his head slightly.

It was no use; and Bennet was alert-minded enough to recognize it.

Finally he became calm and the new developments were thoroly explained. He examined the envelope and postmark of Ethel's letter from Huston Adley; he again pronounced the entire affair a lunatic's hoax and then determined to accompany his cousin and Barney to the sitting with Mrs. Davol that night.

## CHAPTER XIII

Ethel explained the details of spirit communication while Bennet, Barney and she drove to Mrs. Davol's in Bennet's car. Barney, having attended sittings in England, was of course familiar with the ordinary methods; but Bennet was all

stuff mean anything to you?" Bennet demanded of her.

"Some one stands behind you," she said to Ethel; and Ethel turned about, startled.

"Who?" Ethel cried, bending forward.

"One who loved you much; he is tall; middle-aged; he smiles lovingly. He has brown hair; blue eyes; good features. He says he is your father. His hair is lighter than brown. Eva cannot see his face very clearly. He has been trying to come to you many times before; but there have been difficulties."

"What did he want to say?" Ethel demanded again.

"He builds up something; a letter L." "What does that mean?"

"It is his name; no, he shakes his head. It is the name of a place; a city where something has happened."

"London!" Ethel put in again.

"Yes; London. He says it is the name of a person, too."

"What about that person?"

"He says important events will come; he wants to say, they are happening with L. Now he is going. Another is present. He is a brown-faced man with straight, black hair; an Indian—"

Barney put the next question in a strange word, and Ethel, glancing at his pad, saw that he wrote as his question:

"Orchipew?"

"He nods yes," replied "Eva".

He was a Chippewa."

## ADVENTURES OF THE TWINS

### TRAP SET FOR FLAPDOODLE

By Olive Roberts Barton

"Oh, look at the little house over there! Maybe I can rent it."

Nancy and Nick rented a house

keying around the Moon and left.

"I'll just travel along the Milky Way," said he to himself.

As they had been changed into Chinese children they decided to have Chinese furniture.

"I'll just travel along the Milky Way," said he to himself.

He wanted to China, and by waving the splinter off the Fairy Queen's wand and saying some magic words they got all the furniture they wanted—Chinese lanterns, and Chinese cushions to sit on, and funny Chinese stools, and matting, and rice-bowls and chopsticks, and everything.

"I'll just travel along the Milky Way," said he to himself.

"Now," said Nancy, "when Flap-Doodle comes along we'll invite him in. He'll never know us in the world and we can get back the Fairy Queen's wand he stole."

"I'll just travel along the Milky Way," said he to himself.

Everything went well. The Twins hustled as fast as they could, and in a jiffy their little pagoda house looked as if they'd lived in it for years and years.

"I'll just travel along the Milky Way," said he to himself.

Just as they expected, after awhile Flap-Doodle, the purple fairy who flew with his ears, got tired of mon-

day as he went.

He laughed and chuckled every little while when he thought of all

the mischief he had done.

"I'll just travel along the Milky Way," said he to himself.

"I fixed those nobby Twins all right!" he giggled. "Turned one into a baby-doll and other into a wooden-soldier. Wonder where they are now!

**NATIONAL AMATEUR GOLF FIELD CUT TO 1****KID WILLIAMS IN COMEBACK****GOOD COACHES AT MISSOURI**

COLUMBIA, Mo.—Football strategy of the east, the middle west and the west will be brought together when the new University of Missouri coaching staff takes charge of the candidates for the "Tiger" eleven here September 15.

Tom Kelly, head coach, represents the west, having been graduated from the University of Chicago after a spectacular football career there. The eastern banner will be borne by Henry Garrity, Princeton quarterback for the last three years.

Kelly is no stranger to Missouri football followers. They met him first in 1914, when he was piloting the Missouri Miners from Rolla and brought a team to Columbia which won a decisive victory, the only time the "Tigers" have lost to the "Miners" in the history of the two institutions.

Garrity comes as a new man, but backed by a brilliant football career at Princeton and the highest recommendation from "Bill" Roper, former Missouri mentor, now head coach at Princeton.

Football prospects at Missouri are good this year in spite of a dearth of veteran material. Only six or seven letter men will report, but strong reinforcements will come from last year's freshman team.

**EVEN AN UGLY FACE CAN BE A FORTUNE IN FILMS**

(By ESTHER WAGNER) takes all kinds of people to make a world, they say. And it takes all kinds to make the stars. The various types of screen beauties get their pictures in the papers and in soap and face powder ads. The boys with patent-leather faces get their faces in the hair oil ads, but the neglected parties are the villains.

We wouldn't find beauties in disadvantages if it weren't for the villains. It is to call attention to the villainous face on the screen that you know anyone with coarser features than those of Richard Sutherland send him out to Hollywood. There's a place in the movies for him.

Richard Sutherland is the villain in Harold Lloyd's latest comedy, "Madame's Boy." He also has a part in "Look Out Below!" a new comedy, and in "Puppy Love," a new Sunshine comedy. Sutherland's face is uglier even than the celebrated mug of Bull Montana. Bull wouldn't be so bad if he weren't for his cauliflower ears.

**Musical Prologue Precedes "Smilin' Through"**

ORMA TALMADGE'S superlative screen success "Smilin' Through," in which the talented actress has the double role so ably played by Miss Jane Cowl on the speaking stage, continues today and for the remainder of this week at the Sigma theatre.

Preceding the presentation, a special musical prologue has been arranged and is a splendid introduction to the picture itself.

**"Saucy Baby" New Orpheum Attraction**

In accordance with the policy of the New Orpheum theatre, to present to patrons only the best of vaudeville and musical revues, Graves Bros. "Saucy Baby," company arrived in the city on Tuesday for a five-day engagement at the new Market-st play house.

"Saucy Baby" includes, in its diversified program of entertainment, a number of excellent selections; quartet numbers being the best ever heard at the Orpheum, several delightful specialty acts and well balanced comedy. All the requisites, you will see, of a first rate musical revue.

Principles in the cast of players include several artists who played this city last season, among whom are the featured dancers, Palmer & Dorre. This talented young girls, won instantaneous ap-

Richard Sutherland has the ugliest face in the movies. Katherine MacDonald's is used just by way of comparison—beauty and the beast idea, you know.

resent, no doubt, considerable time and expense; in fact, the entire production is carefully arranged and presented, and patrons of The New Orpheum are assured of splendid entertainment during every minute of the performance. Yes, I am quite sure you will find enough amusement in "Saucy Baby" to justify the necessary expenditure of time and cash.

Starting on Friday, the Graves Co. will change their program, to continue for two days only, the engagement ending on Saturday evening.
